

ITW Buildex Environmental Policy

ITW Buildex manufactures metal fasteners and fittings for building industries throughout Australasia.

It is our commitment to minimising the impact of our activities on the environment by adopting the ISO14001 standard for our environmental management system to ensure we conduct all our activities in a sustainable manner that minimises the generation of wastes and prevents pollution to the environment.

To ensure that our commitments are met, we will:

- ✓ Identify, review and manage the significant environmental aspects of our business and will integrate these activities with our quality assurance and health & safety programs.
- ✓ Apply principles of cleaner production to our operations and design products, processes and packaging to prevent pollution.
- ✓ Be responsible and accountable for continual environmental improvements through the setting of environmental objectives and targets.
- ✓ Continue to be responsive to the environmental concerns of our community.
- ✓ Provide environmental awareness training for all employees, contractors and key suppliers in order to manage processes and materials to assist in minimising the environmental impacts of our business.
- ✓ Communicate the substance and intent of this policy to all our employees and stakeholders.

JOHN DICKINSON
General Manager
ITW Buildex
